

Tableau Course

Description:

The demand for effective, accessible, and actionable interfaces grows daily as enterprises gather more and more critical data. New business intelligence tools like Tableau drastically decrease the time and technical knowledge necessary to extract insights from data and present them in a style that is easily understood by the end user. In this course, you will learn to harness the power of Tableau for every step in the dashboard building process.

Start Date:

Doubt Clear Time:

Course Time:

Features:

Course material

Course resources

On demand recorded videos

Practical exercises

Quizzes

Assignments

Course completion certificate

What we learn:

Tableau Vs Excel

Pie Chart
